

Argumentative Essay on Negative Effects of Social Media

Here you an argumentative Essay on Negative Effects of Social Media with free Pdf, Let's Start !

Social media is a popular tool these days because of its easy-to-use features. Social networking sites such as Facebook, Instagram, Twitter, and others offer people the opportunity to connect in remote areas. In other words, the whole world is in our hands because of social media. Young people, in particular, are one of the most significant users of social media. All of this makes you wonder if something so powerful and so accessible could not possibly be all good. Just as there are always two sides to the money, the same goes for social media. Later, different people have differing opinions on the subject. So, in this article on Social Media, we will see the pros and cons of social media.

Benefits of Social Media

When we look at the positive aspects of social media, we find many benefits. Most importantly, it is a great educational device—all the information a person needs in just a click. Students can teach themselves a variety of topics using social media. In addition, live chats are now possible for communication purposes. You can watch a talk in America while you are in India.

In addition, as more and more people move away from the newspapers, they rely on social media to get the news. You are constantly updated with the latest world events with it. One becomes proficient in world affairs socially.

It strengthens the bonds with your loved ones. Distance is no longer a barrier to communication. For example, you can easily communicate with your friends and relatives overseas. Most importantly, it also offers an excellent platform for emerging artists to showcase their talent for free. You can find great job opportunities through social media. Other profits certainly benefit companies who wish to advertise their products. Social media has become an advertising centre and gives you great opportunities to connect with customers.

Negative Effects of Social Media

Despite having such unique advantages, social media is considered one of the most dangerous social media platforms. If social media is not monitored, it can lead to dire consequences. It is dangerous because it attacks your privacy in a way that has never been done before. Excessive sharing on social media makes children vulnerable to crime.

Therefore, sharing on social media, especially with children, should be monitored at all times. The addition of social media platforms that are common for young people follows. This practice disrupts students' academic performance as they waste their time on social media instead of studying. Social

Performdigi

media also creates tensions in the community. False stories about its use are being spread, damaging the peace of peaceable citizens.

In short, social media certainly has both good and bad points. Young people should especially balance their academic play, physical activity, and social media. Excessive use of anything is dangerous, which applies to social media. We must therefore strive to live a satisfying and balanced life.
