Subject: Bad or Poor Condition States of the Roads in the City

Sir,

May I have the liberty to pen down my views on 'the city roads' to be published in one of the columns of your esteemed daily? I am forced to draw the kind attention of authorities towards this pathetic issue of '*deadly condition of the roads in the city*'.

The city roads have turned into *accident-prone* zones. There are nothing else but *potholes* on the roads everywhere. The commuters can't *drive* smoothly over the roads. Neither the pedestrians are safe or the *vehicle-users*. The situation has got worst during the *rainy season*. Due to *water-logging*, one cannot find a safe way to move ahead as large as large *pits* are not visible which are waiting for their prey open -mounted.

Many *complaints* have been made to the *concerned departments* but of no use, as no *action* has been taken yet. These roads need to be *repaired and maintained* thereafter immediately. In fact, some roads need re-construction with *good quality material*.

Therefore, It is requested to look into the matter and publish these views so that the concerned authorities may wake up to take urgent action.

Thanks
Yours Sincerely
Karuna
