**Subject:** Widespread terrorism and anxiety thereon

Sir,

Through your esteemed columns please allow me to draw the attention of the authorities and the community about the widespread fear of anti-national activities going on all over the world. All know that terrorism has become a worldwide phenomenon. A handful of extremists and militants are bent upon demolishing the established system of rules and peace of the people. In order to create terror and to meet their nefarious designs, they do not hesitate to bomb, murder, hijack, loot, and arson the peace-loving people. In India, we daily come across cases when the terrorists have not massacred at least half a dozen people in any part of the country. It is believed that *Pakistan* and some foreign agencies are supporting the terrorists with arms, ammunition, and money.

**bomb blasting in the Kashmir valley are some of the tragic examples of terrorism. This disturbs the peace and harmony of the people. The national economy is shattered and people lose faith in the government. In order to combat this problem, we have to adopt more stringent measures by sealing borders, spreading a vigilant network of *C.I.D.* and use of Pota, etc. Side by side our society should remain watchful and vigilant to nab the anti-nationalists then and there.**

**Yours Faithfully
