

Essay on My Hobby

In this blog you will learn about the Essay writing on My Hobby. Let's understand with the introduction and by it's conclusion

Introduction:

A hobby is what one usually does in order to have fun and enjoy one's leisure time. Having fun is a great thing that can be developed at some point in a person's life from childhood to adulthood but sometimes it is much better to have fun from childhood. We all participate in some kind of work in line with our interests in which we derive pleasure and happiness from; this work is our hobby. We all have different hobbies based on our interests, likes and dislikes.

Types of Entertainment- Hobby

There are many types of hobbies we can show interest in and improve, such as singing, dancing, playing outdoor or indoor games, drawing, collecting antiques, bird watching, writing, photography, reading, eating, playing, sports, music, garden, cooking, watching TV, talking and any other activity you can think of. Our various hobbies become a source of income and livelihoods and we can create the most successful work with our hobbies. Recreational activities are meant to be enjoyed during our leisure time but can be much more than that.

Favorites v/s Hobby

Another popular misconception is that we can have only one hobby; this is by no means true. Growing up, I loved and loved to cook and I spent many hours watching cooking programs and watching my parents cook. Soon, I was experimenting with different recipes and dishes that I had seen on TV and sometimes even filmed a few treats. Cooking gave my childhood a lot of joy and happiness which made it one of my favorite things, I could cook all day and just be happy when I thought of trying a new recipe.

One of my favorites is soccer, which is an accidental hobby (if anything like that). I have always loved watching football (or football) and am very good at analyzing and understanding the game but I have never tried to play this game because of my first cooking hobby which meant I was a housewife. The fate would be that one of my closest friends was on the varsity football team and all the goalkeepers were injured so he told me about an open evaluation of the goalkeeper's position and I just decided to give it a try.

I was amazing in the try out and got a place in the varsity football team, became a very good goalkeeper and looked forward to every opportunity to get on the pitch. There is this feeling of satisfaction and satisfaction that I get whenever I am on the playground. It is very possible that you

have more than one hobby to open up opportunities for all the different activities and interesting things around us.

My Favorite Hobby

My favorite thing is the garden. Most of my leisure time is on cooking or playing soccer in the garden. The garden has been a great source of information, education, pleasure and entertainment for me. I had the opportunity to learn many new things about flowers, plants, vegetables, butterflies and even birds from the garden. My parents have a small place for me to pursue and pursue this hobby.

I have a variety of vegetables, flowers and a few fruit trees in my garden. Some of the vegetables I grow are carrots, tomatoes, cauliflower, cabbage, spinach, seedlings, peppers, hot peppers, etc. Jasmine, lilies, lilies, sweet gold, carnation, poppies, flux, and forget me-no are among the flowers I grow. These flowers make the garden enjoyable to see and give the garden a pleasant aroma.

There are several fruit trees in the garden including bananas, mangoes, guavas and pomegranates. The garden is often visited by numerous birds, and some birds live permanently in the orchards. The humming sounds of birds and their beautiful music give the garden a beautiful scenery and a beautiful setting.

Working in the garden has helped me with other hobbies (soccer) by keeping me mentally alert, healthy and hot. The ambience of the garden is very refreshing, fresh and soft; there is peace in the atmosphere of the garden. Processes and activities involved in gardening include weeding, digging, linking, cutting, ripening, irrigation and soil cultivation. All of these activities give me the exercise I need to keep my body balanced and mentally fit.

Many family members and friends appreciate my garden of amusement. Over the years, I have been able to develop the necessary skills in the garden, sometimes; and my father helps me take care of the garden. I have a wonderful and amazing collection of magazines and books on vegetables, flowers, fruit trees and the whole garden. It is a wonderful feeling to see plants grow, grow and flourish.

I am not full of knowledge in the garden; sometimes, I get advice and help from a gardener to know what to do. I spend a lot of my money buying compost, seeds, fertilizer, garden tools and garden tools and tools also try to host all the programs on television about the garden, visiting plant and flower shows and fruit and vegetable shows. I also balance all my hobbies, lessons and other engagements without hurting one of them to others.

Farming inspires me and gives me a sense of purpose in what I can achieve with my life. When I work in the garden, I forget about all my worries, problems and worldly problems. I really enjoy working in the garden or when I come in to give my friends and family members fruit from the garden.
