

Letter to Introduce a Regular Program on Career Counselling

Question: There are many students who do not have the opportunity to get guidance about their future career or for the selection of subject at the school or college level. Write a letter to the HRD minister **requesting him to introduce a regular programme on ‘Career Counselling’** for students of the country.

Answer:

V&PO Sadhrana,

8th July, 20...
Hon'ble Education Minister,
HRD ministry,
New Delhi

Sub: Request to introduce a regular program on ‘Career Counselling’

Sir,

Kindly allow me to draw your attention towards the grievances of most of the students in various schools and colleges of India.

The students’ career starts with the choice of subjects at +2 stage. Most of the students find themselves at bay. They fail to seek proper guidance about their future career. Most students choose science in peer pressure or societal pressure. They lack passion and understanding of chosen subjects. Hence, we see that many students work menial jobs or are unemployed. They are unable to receive proper qualification for their job roles.

The situation needs urgent attention and can be improved. Students need to understand their passion and be guided properly towards a bright future. Therefore, I request you to introduce a program on career counseling. This will help students get a proper guidance and they will be able to chart a career path. This will also improve the quality of our work force. Stress will also be reduced among employees since they would work for their passion.

Therefore, I request you to take this into immediate consideration and introduce a program on career counseling at the earliest for the benefit of student community as well as the nation.

Thanking you,
Yours faithfully,
Har Narayan Vashishtha
